

# Billie's Medical Adventures

**Billie's Medical Adventures** is a program designed to familiarize pre-school and elementary-age children to common health screenings while introducing them to various health careers through puppet play.

Our main character is Billie. During each puppet show Billie will help depict a typical medical screening that children experience so that they will be able to recognize various health professionals, understand what it is they do, and familiarize them with experiences they may encounter during a routine office visit. He will visit with various health professionals and demonstrate the following scenarios through lively banter between Billie and each health professional:

- Billie goes to the Pediatrician to get a check-up
- Billie goes to the Optometrist
- Billie goes to the Dentist

## **WHAT'S INCLUDED:**

- Two Puppets
- One Puppet Instruction Booklet
- 20 Coloring/Activity Books
