

## **Pricing List**

**Scrubs Club** is designed as an after-school program, but can easily be incorporated into any classroom curriculum. The program helps young people build solid futures by introducing them to a broad array of careers in healthcare. The goal is to engage students through encouragement and mentoring programs to demonstrate that continuing their education beyond high school can be meaningful, engaging, and relevant to their future. By fostering long-term partnerships among businesses, educators, community-based organizations, and parents, **Scrubs Club** helps prepare young people to meet the challenges and requirements of careers in the health care industry in today's knowledge-rich society.

The program consists of twenty-seven (27), one and one half hour, educational sessions with associated hands-on activities. The flexible, easy-to-follow Scrubs Club lesson plans allow each instructor to utilize the curriculum that best suit their teaching style and needs. To date, Scrubs Club has been utilized as the longitudinal program, as well as integrated into daily class curriculum, as an afterschool activity, and as a multi-school collaboration in high schools, at-risk youth programs, afterschool programs, community-based career workshops, BOCES, Science & Technology Entry Programs (STEP), and other Area Health Education Centers.

The **Scrubs Club** Student Activity Toolkit provides a variety of classroom, career exploration, and service learning activities. Complete lesson plans, worksheets, background information hands-on activities and activities materials are included in each program.
