

SCRUBS CLUB VIRTUAL PATHWAYS TO HEALTH CAREERS

SCRUBS CLUB VIRTUAL is a complete online program designed to engage students to learn, first-hand, the real-life roles, responsibilities, and rewards of serving in the health care field by "test driving" various occupations through the program's engaging and relatable lesson plans and thoughtful exercises.

SCRUBS CLUB VIRTUAL is a three-tiered educational program including individual lesson plans in Health Career Exploration, Life Skills, and Career Pathways. Students will learn about health careers within the career clusters, teamwork, communication skills, and how current high school courses relate to a future career in healthcare. The average lesson plan timeline is 30-50 minutes depending on the curriculum and class participation.

SCRUBS CLUB VIRTUAL curriculum incorporates Career Development and Occupational Studies (CDOS) standards, National Career Development Guidelines (NCDG) framework, and aligns with the National Health Education Standards (NHES).

USER FRIENDLY

- **SCRUBS CLUB VIRTUAL** is a complete, turnkey program.
- It contains all lesson plans and activities.
- The easy-to-follow lesson plans and downloadable, hands-on activities of Scrubs Club accommodates the individual instructor's virtual curriculum needs.
- Scrubs Club instructors do not have to have clinical experience to facilitate this program.

VERSATILE

SCRUBS CLUB VIRTUAL can be utilized as a supporting curriculum for existing health education classes, as a supplemental credit recovery tool, home assignments for health and career related homework, and as an afterschool or extracurricular activity in organizations throughout New York State and beyond.
