

DOCUMENTATION, CODING, AND BILLING FOR SUD/ OUD: A FOCUS ON RURAL AND COMMUNITY HEALTH

A Two Day Training Event

In partnership with ArchProCoding and JBS International
Tuesday, April 18th 10am-12pm and Friday, April 21st 10am-12pm

AUDIENCE

The audience for this training includes Rural Health Clinics (RHCs), Federally Qualified Health Centers (FQHCs), Critical Access Hospitals (CAHs), mental health care providers, and primary care organizations that provide SUD/OUD screening, MAT services, and behavioral health services.

TOPICS OVERVIEW

The training will be broken into two sessions, allowing for ample time to review the following topics:

- Overview of the opportunities and challenges associated with variable reimbursement mechanisms, including coding and billing for Medicare, managed care, Medicaid, and other third-party payors
- Compare diagnostic terms used in the DSM-V versus the ICD-10-CM.
- Tools for identifying and screening individuals who are at risk of SUD/OUD (
- Reporting MAT screening, pre-induction visits, induction visits, and stabilization/maintenance visits
- Administrative requirements for obtaining DATA 2000 waivers and recent exclusion options
- Understanding Medicaid H-code options for SUD, OUD, and MAT treatments
- Overview of the ICD-10-CM's "2022 Official Guidelines for Coding and Reporting"
- Documenting psychiatric diagnostic evaluative services, health assessments, and psychotherapy
- Limitations and opportunities related to reporting group therapy
- Reporting of non-face-to-face services including telehealth, virtual communication services, online digital visits, Behavioral Health Integration (BHI), and the Psychiatric Collaborative Care Model (Psych CoCM)
- Transitional care management, telehealth, online digital Evaluation and Management (E/M), and virtual check-ins

TOPICS BENEFITS

There are several benefits from participating in this training, including:

- Understanding the roles of each team member and their relationships in the coding/billing process
- Determining service code billing options based on payor requirements
- Learning about services that can be billed between patient visits
- Learning how to increase evaluation and management (office visit) reimbursement opportunities
